Make-A-Wish Georgia's mission is simple:
To create life-changing wishes for children with critical illnesses.

A wish brings **hope** and **joy** to children and their families, and when a child is fighting critical illness, a wish also becomes an important component of that child's healthcare journey. This is why health professionals use a wish as a part of the treatment plan for this extremely vulnerable population of patients. When a wish is granted, a child replaces fear with **confidence**, sadness with **joy** and anxiety with **hope**.
